

Hey Cameron,

Please find enclosed a check for the agreed upon amount for the external painting of my home.

Your crew did a wonderful job. They were extremely hardworking (especially Alex), professional, polite, and were careful painting around plants growing near the house. The neighborhood where I live has homes that are relatively close to each other, and your team even took special care to make sure that my neighbor's property was safe from potential paint drips. Also, Jose proactively had needed paint chips with him for color matching when he went to buy the paint. As Home Depot had managed to lose the order and reference numbers within their system, this really saved the day.

The crew showed up early, stayed late, and got the job done quickly with excellent results. My house looks fantastic!!

Please feel free to use me as a reference going forward. I'm very happy with the team that you sent to do the work and with the results.

Thank You!!!!,

Linda Esau

Hi Cameron,

We stopped by the house and what a great job your guys did!

1. We were impressed with the clean up and care taken around the landscape.
2. We were impressed with the detail that was done, such as the painted house numbers and handrail.
3. We were impressed with the prep taken for the areas that were scraped. They show very clean and even.

We know you have many referrals but would be honored to give one if it would help you in any way. We will certainly tell all of our friends if they need painting done.
